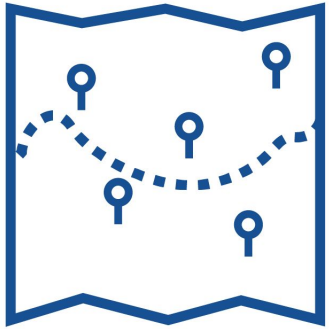
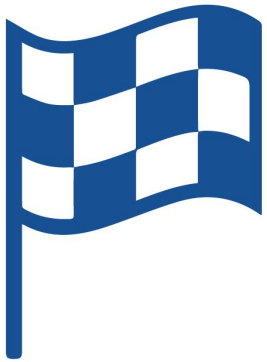
Statement of Intent

01

This project's purpose is to provide a mobile application for users to add and track dogs that they see out in the world. This project will also track the condition of the dog that the user finds.



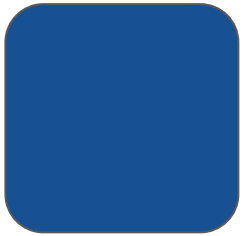
Providing a way to track the locations of various dogs will allow users to be up to date on where their favorite canines are. Users can also use this application to keep tabs on dogs that they deem unsafe.



As a user that owns a dog, I find it useful to provide a way to keep track of the locations that my dog has been. For any other dogs that I meet out in the world, it would be an easy way to track which dogs are safe around my dog and which ones aren't. That is the primary goal of this project.

Color Exploration

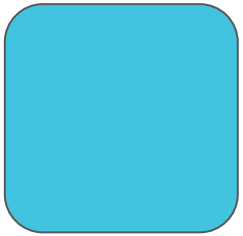
#185193



Main Color

- This color will be used for the navigation icons and in headings.

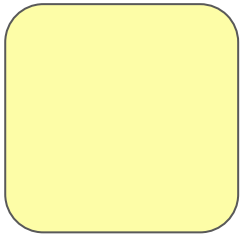
#42c4e1



Main Color

- This color will be used for the addition icons to add locations and additional dog entries.

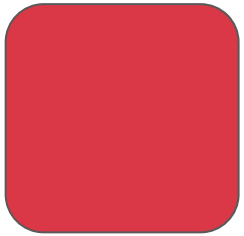
#fdfda7



Sub Color

- This sub color will be used for the edit icons to edit information for the user profile and individual dog entries..

#da3846



Sub Color

- This sub color will be used for the delete icons and close out icons.

For Headings:

Chalkboard

ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz

DOG WATCH is an application for users to track and document dogs that they see out in the world.

The Chalkboard font provides a relaxed font that users can easily read. This font is primarily used for headings and maintains readability at larger font sizes.

For Body Text:

Nunito

ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz

DOG WATCH is an application for users to track and document dogs that they see out in the world.

Nunito is a font that produces a high level of readability in smaller font sizes. The font also provides a hip, contemporary feel as far as modern fonts go.
